November 5, 2008

Dear Parents, Staff and Community members:

It is a great day and everyone is very pleased and thankful that the voters of Millbrae overwhelmingly approved our school bond measure (Measure X). The voters of our community acknowledged that our children will continue to receive an excellent education and made it possible to provide that education in schools that are safer and provide a healthier environment.

A very sincere thank you goes to our Campaign Committee, particularly to Caroline Shea, the Committee Chairperson and to all of you who actively participated in helping to pass Measure X.

Our next steps are to establish an Oversight Committee and to begin the process of selling bonds in order for renovation and modernization to begin. The highest priority will be projects that address health and safety issues. Also, projects that need immediate attention. Then the more major projects that have been prioritized will be scheduled. We will be discussing a review of these priorities at our November 12 Board meeting.

Again, we are thankful and pleased that our local voters so clearly stated their support for the education of our children, now and in the future.

Sincerely,

Shirley Martin, Ed.D.
Superintendent
