

September 2011

Dear Parents and Guardians of our Taylor Middle School Students:

California State law requires that all students entering 7th through 12th graders must have the whooping cough booster verification form (T-dap) submitted to the Taylor School office by Thursday, October 6. If your child has not had the booster shot, he/ she must do so before October 6 otherwise your child is not allowed to attend school. This Wednesday (September 28) personalize letters were sent home with all children who did not turned in the verification form. Please check your child's backpack and binder.

Attached is a copy of the form to be completed and returned to the Taylor School Office. <http://www.millbraeschooldistrict.org/taylor/Tdap-immunization%20letter%20to%20parents%20%202010-2011.pdf>

Thank you for your immediate attention and support in assisting with this new State requirement.

Sincerely,

A handwritten signature in black ink, appearing to read 'Luna', with a long horizontal flourish extending to the right.

Superintendent Luna
